## Our Program

Our program offers opportunities for the young, beginning player to the top tournament playing high performance player. We keep our ratio of players to staff low to allow more individual attention and to provide an enhanced development environment.

In addition to our QuickStart Program, Hot Shots Program, Player Development Program and High Performance Program, we offer "Specialty" group lessons for all levels of junior players.

Private lessons offer an excellent opportunity for a player to make great progress in a short amount of time. Most of our top junior players supplement their group training with private lessons.

We will also be offering coaching at tournaments for our high performance players, in addition to USTA Junior Team tennis and Junior Interclub for our players looking to add more competitive opportunities to their schedule.
